

ALAN WOFSY FINE ARTS

BIBLIOGRAPHY OF 20TH CENTURY ART PUBLICATIONS.

Hans Bolliger for Kornfeld & Klipstein, Bern. 592 pages. San Francisco: Alan Wofsy Fine Arts, 1991. ISBN 1-55660-079-8

The six volumes which are brought together in this new complete edition of the *Dokumentations-Bibliothek* originally served as auction catalogues for the renowned graphics and art book auction house, Kornfeld & Klipstein of Bern, Switzerland. Since their first appearance they have become important bibliographical reference works for art and book dealers, collectors and librarians, who cite works by their D.B. number. The individual catalogues have been out of print and sought after for a number of years.

These six catalogues are now available in a combined cloth-bound edition. Altogether there are 2,854 catalogue entries describing more than 4,000 works, with 702 illustrations. There is a new exhaustive general index, and the compiler contributes a new foreword in both German and English.

The *Dokumentations-Bibliothek* describes the most important art publications, many of them associated with avant garde art movements, from the first three-quarters of the 20th century. The reader will find the names of writers and artists from both well-known and esoteric art, literary and intellectual movements, and their associations with specific art publications.
